Dear Miss Barron,

We both go back many years and have many recollections of wrong and evil.

But perhaps if we can get the truth out here there will be less harm, less evil. One can only try.

Thanks very much for the time and effort in writing me. Dell forwarded your card.

As you can see, I haven't stopped. I don't think you will, either.

Good luck. Should I also say "Non Passaran"?

Sincerely,

Harold Weisberg

Dear Mr. Weisberg, thank you so much for your book. I'm amazed that what is in your book is not yet known to the public. Between two commercials - 1 sentence out of context - makes the U.S.A. the most ill informed public in the Western World.

The first thing that hit me (& have never been a T.V. nor can I afford one now, nor in the foreseeable future - due to a long illness) was that photo of Oswald with that "Militant Worker" in the same hand! Having worked in "Fascist Spain" & having seen just a little of the bitter hatred (there & in N.Y.C.) of both groups represented by those papers - led to the death & I knew something was very wrong there! Also that Oswald was ignorant of Communism & something possibly wrong with photo?

I read some of the news accounts as well. The discrepancies in "N.Y. Times" Warren Report summary & in Sen. Ford's book - leaked to the eye. Over

P.S. my hand is numb already  
 from arthritis etc. I can't  
 write more - but I'm glad  
 to have your book spelling  
 it out. Date. Place. Name  
 etc. Thank you. I feel  
 more uneasy every  
 day for our Country the  
 cause of the lico - but  
 without someone tel-  
 ling the truth what will  
 become of us all!

Taking notes on only the most  
 glaring discrepancies in the little  
 book - I had enough to write  
 back myself. The Report & Senate  
 words include an insult - to my intelligence
